

Alloway Township Environmental Commission
December 9th, 2013 Monthly Meeting

Attendees: Craig Kane, Joe Mahar, Anne Sullivan, and Marilyn Patterson

Absent: Frank Ponti, Chris Gilbert, and Autumn Angelus

Minutes were approved as written.

Discussion:

We need to develop a binder of questions for the Planning/Zoning Board to use when they review applications.

Anne will scan the water management data into the computer to make it available for the Environmental Commission and Planning Board.

Joe received no correspondence this month.

Emerald Ash Borer is expanding its territory. They have also found new infestations of Asian Long Horned Beetles elsewhere in the country.

This month's Planning Board Meeting has been cancelled.

We discussed holding meetings only when we have projects. It was also suggested that we send a representative to the Township Committee Meetings. We need to find a way to work better with the Township Committee. Anne said that ANJEC said that Environmental Commissions need to increase their visibility.

Meeting was adjourned.
