

SOUTH JERSEY LAND &  
WATER TRUST

# COMPOSTING AND RECYCLING WEBINAR

Hosted by South Jersey Land & Water Trust thanks to a generous grant from the USDA and Rowan University

Learn how to turn your kitchen waste into nutritive compost for your garden! At our FREE Composting and Recycling Webinar, you will learn how to build and use a compost pile as well as the many benefits composting brings to your garden and to the environment. Best recycling practices will also be presented so you can ensure your plastic waste doesn't pollute the environment.

We also have beginner compost bins made of hardware cloth available for purchase! Each container is \$20.00. We have 15 compost containers available, and it's first-come-first serve. Compost bins MUST be ordered in advance of the workshop when you RSVP. Bins can be picked up from Oldmans Creek Preserve, 21 Main Street, Swedesboro, NJ 08085 on Tuesday October 6, 2 to 6 PM. You can pay by cash or check when picking up your bin.
