Announcements/ Correspondence:

- An additional 180 acres to be added to Supawna NWR in Pennsville Twp.

Discussion-

Old business:

- n/a

New business:

- Mosquito Control & Beaver activity: a question was raised about the relationship between mosquito control and beaver culling. Mosquito Control submits locations of beaver activity to NJDEP. NJDEP provides those locations to local beaver trappers. Mosquito Control itself DOES NOT trap beaver.
- *Planning Board-* Re-appointments of members, no changes. Nothing on PB agenda regarding the stormwater ordinance. The PB voted 4-4 on the Stormwater Ordinance last month, so it has gone to the Twp. Committee, following recommendations by Alexis Coleman, Warren will speak with the Committee about going with the more comprehensive ordinance. The deadline is March 1st. The next Twp. meeting is Feb. 18th and will likely be voted on then. Someone from EC should try to attend, or we should write a letter. Warren stated that the ordinance can be revisited at anytime for amendments.

Meeting adjourned at 7:40pm
