Discussion-

Old business:

- ANJEC dues approved at the finance meeting today.
- EC Meeting dates have not been posted, and the members are not listed correctly on the website. AA resent an email tonight to the Clerk.
- Camp Roosevelt and the adjacent land are for sale. The for sale sign is against Twp. ordinance (too big). There is an opportunity to preserve an important Cool Run riparian area/ watershed. We would like to see a conservation foundation take interest in this land. This area is Atlantic White Cedar swamp habitat, important for the Hessel's Hairstreak, a butterfly of special concern in NJ.
- Paradise Lakes - NJDEP judgment to the owner expected.
- ERI revisions - CK still working on these.

New business:

- Letter regarding off-shore wind correspondence from RW - she will be pulling back the letter to send out as an individual. Discussion ensued.
- Poster/ Essay contest for 2024: Pros and cons of wind energy in Southern NJ. DD will reach out to the ATS science teacher so we can come up with a focused question to guide the students.
- Planning Board - There is a property B3, L48 (Kerlin Rd) looking to file a variance for an undersized lot. The applicant would like to build a single family home on the property. The property was grandfathered in previously per ordinance based on the property size. No bulk variance required.
