

# Storm Damage Updates

Residents should be careful of all downed wires and broken utility poles and high hanging overhead tree limbs. Do not drive over or under down power lines!

---

Also residents with Special Needs should register with the state registry at: <http://www.registerready.nj.gov>

---

Please report stream and waterway obstructions to the local Office of Emergency Management.

---

If you have had no power for more than 8 hours to your refrigerator or freezer, remove all food and properly dispose of it. Take precautions to avoid food poisoning.

---

All tree or stump removal work requires a utility markout. Before digging, get a markout! Call 811. <http://www.nj1-call.org>

---

Please only use "911" for emergencies only!

---
